

CHILL SEEKERS

Become **Chill Seekers** and embark on a fun-filled conservation adventure that is perfect for the winter months. As you unlock each of the four steps, your club will enjoy fun, hands-on eco activities that can be finished in just one or two meetings. The adventure is flexible and can be done at your own pace.

When you finish, you'll earn an exclusive **Winter Quest pennant** and a **personalized certificate** to celebrate your club's hard work and commitment to conservation.

Let's start changing the world together – one step at a time!

QUEST OVERVIEW

Step 1: Conservation Champions

Start your journey by having your club share why conservation matters to them, using sentences, words, or pictures.

Step 2: Energy Experts – Help save energy with ONE of these activities

- **Power Detectives:** Explore how your school can save energy and stop wasting it
- **Layer Up like a Polar Bear:** Stay cozy and save energy at home by wearing more layers instead of turning up the heat
- **Block the Breeze:** Make your own DIY draft stoppers to keep the warm air in and the cold air out

Step 3: Water Warriors – Use water wisely with ONE of these activities

- **Save with Snow:** Collect snow and use it to water your plants
- **Water Wasters Beware:** Take on a one-week challenge to cut down on water waste
- **Every Drop Counts:** Explore how wasting water affects animals, plants, and people through an interactive activity

Step 4: Animal Admirers – Get hands-on with conservation with ONE of these activities:

- **Conservation heroes:** Raise funds to support animal conservation projects
- **Art for the animals:** Spread the word about endangered species through art
- **Bird Café:** Craft bird feeders to help our feathered friends
